Sandeep Kumar
Full Stack Web Developer

PROFESSIONAL SUMMARY

Professional Summary: ``` Innovative Full Stack Developer with robust skills in the MERN stack (MongoDB, Express.js, React.js, Node.js) and JavaScript. Expertise in building scalable web applications and efficient APIs. Proven ability to leverage Generative AI and quickly adapt to new tech stacks. Strong problem-solving and collaboration skills. ```

WORK EXPERIENCE

Unifi Health Inc.

Full Stack Developer | June 2024 – September 2024

Job responsibilities:

- Managed both frontend and backend tasks for the Rejuvenan Global Health website, resolving critical issues such as password resets and optimizing user flows.
- Developed UI components for a stealth-mode project using Next.js, ensuring responsiveness, performance, and cross-browser compatibility.

SS Coaching

Founder and Director | February 2019 – August 2022

Job responsibilities:

- Developed and oversaw board exam preparation curricula while personally teaching mathematics and physics, fostering an environment conducive to academic success.

PROJECTS

1. Tomato | ⊕ | 🕷
React | JavaScript | HTML5 | CSS3

- Developed a comprehensive frontend for a food ordering platform using React, HTML, CSS, and JavaScript.
- Implemented dynamic item display, user authentication, and account management.
- Ensured responsive and user-friendly design, optimizing the mobile and desktop experience.

2. FreeTube | ⊕ | 🕷
React | JavaScript | HTML5 | CSS3 | Responsive Web Design

- Created a YouTube clone with up-to-date APIs and responsive web design using React.
- Integrated YouTube Data API for real-time video data fetching.
- Focused on a seamless user experience across devices with comprehensive frontend development.

3. Edusity | ⊕ | 🕷
JavaScript | React | HTML5 | CSS3 | Responsive Web Design

- Developed a responsive React website for a fictional university, showcasing available degrees.
- Managed UI and state to ensure a seamless user experience using React, HTML, CSS.
